DETAILED ACTION

REASONS FOR ALLOWANCE

Claims 2, 4-8 and 17-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Masanobu, Lin and Chen et al. fail to disclose the combination of all the limitations recited, including a power supply module mounted on an upper surface of the semiconductor package; a first electrode connected to the first conductive throughhole and inputting power to the semiconductor IC from the substrate through a first path comprised of the one solder ball, the first conductive throughhole the first electrode and the plurality of first bonding wires and second bonding wire, in the semiconductor package, connected to the second conductive throughhole and the semiconductor integrated circuit, and supply power to the semiconductor integrated circuit from the power supply module through a second path comprised of the second electrode, the second conductive throughhole and the second bonding wire.

Therefore, the amended limitation together with the overall structure of the semiconductor integrated circuit module is neither anticipated nor rendered obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
